THE ONLY TROUT FISHERY LIKE THIS IN THE LOWER 48

For Dustin White, fishing was never just a hobby. It started with a rod in hand when he could barely walk and grew into a way of life built around hospitality and the great outdoors.

For Dustin White, fishing was never just a hobby. It started with a rod in hand when he could barely walk and grew into a way of life built around hospitality and the great outdoors.

Just named the Orvis Fly Fishing Guide of the Year, Dustin has spent combined 17 seasons guiding between Wyoming and Ohio, with the last seven years full-time with the team at Ugly Bug Fly Shop. What began as taking friends fishing quickly snowballed into something bigger, turning a side hustle into a career rooted in connection.

GLOSSARY

CASPER AREA ACCOMMODATIONS

Average Daily Rate (ADR)

Average revenue earned per occupied room in a hotel over a specific period (room revenue/rooms sold).

Occupancy %:

Percentage of available rooms that are occupied over a given period. Calculated by the number of occupied rooms divided by the number of available rooms that physically exist in our hotels.

RevPAR

The revenue per available room calculated by multiplying a hotel's ADR by its Occupancy (or by dividing total room revenue by the total number of rooms available).

STR

Performance data collected and reported by STR (Smith Travel Research). STR Data helps track key performance metrics (such as ADR, Occupancy and RevPar).

- All data reported in the Casper Area Accommodations section of this scorecard is provided by Smith Travel Research, with the exception of the year-over-year (YOY) percentage for the "Pre-COVID" comparison. That YOY percentage is calculated internally by Visit Casper using the following rate of change formula: **Rate of Change (%) = ((New Value – Old Value) ÷ Old Value) × 100.**
